tracesbc without Root Access

Run the following command as root SBC Cli:

```
sed -r -i 's/(^Cmnd_Alias
IPCS_COMMANDS.*[^t][^r][^a][^c][^e][^S][^B][^C])$/\1\,\/usr\/local\/tracesbc
\/bin\/traceSBC/g' /etc/sudoers.d/001_sbce\\
```

After running the command tracesbc is running without root password.
